PRIOR ART

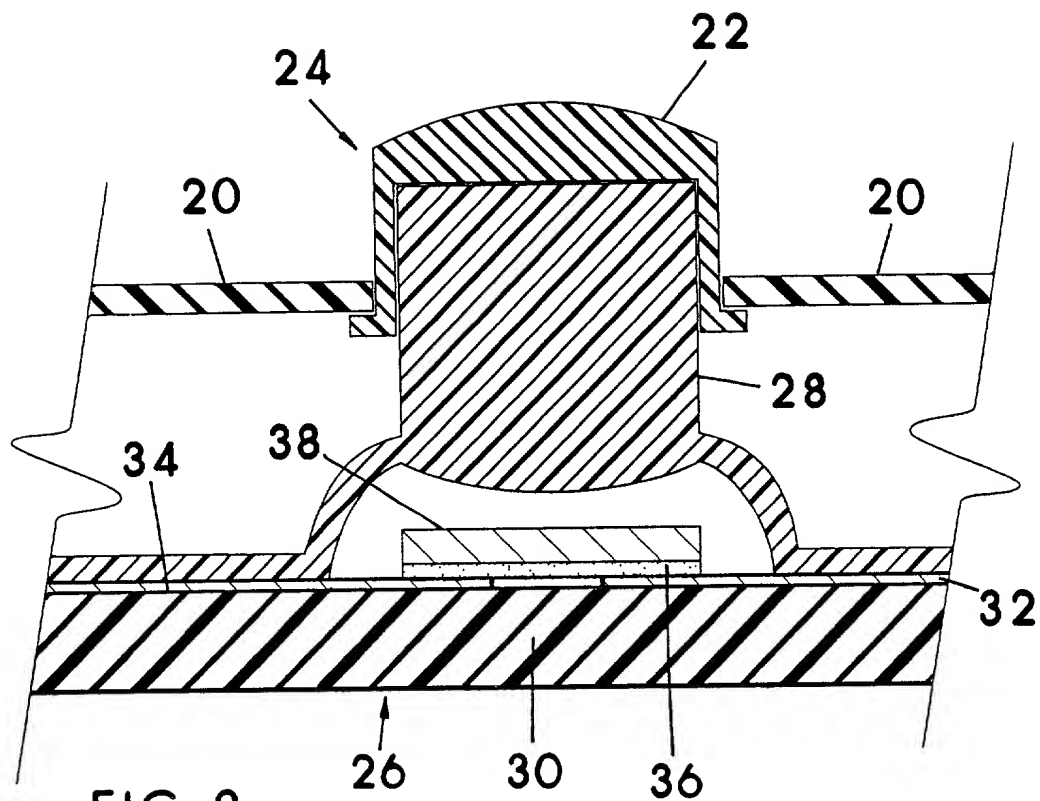

FIG. 3

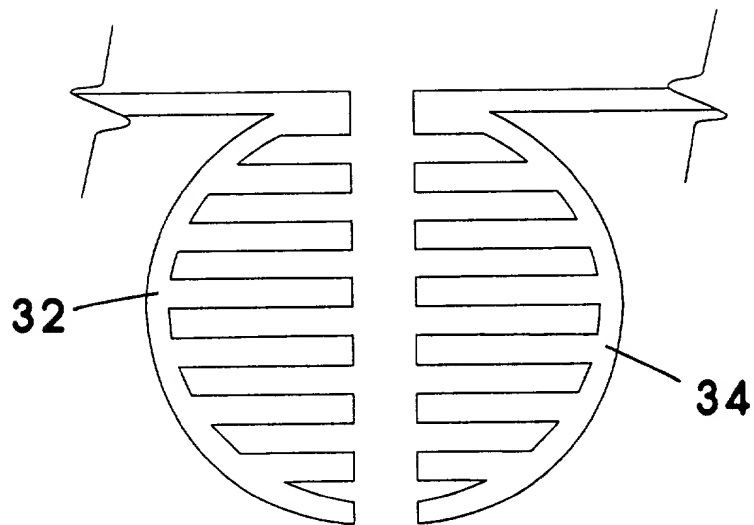

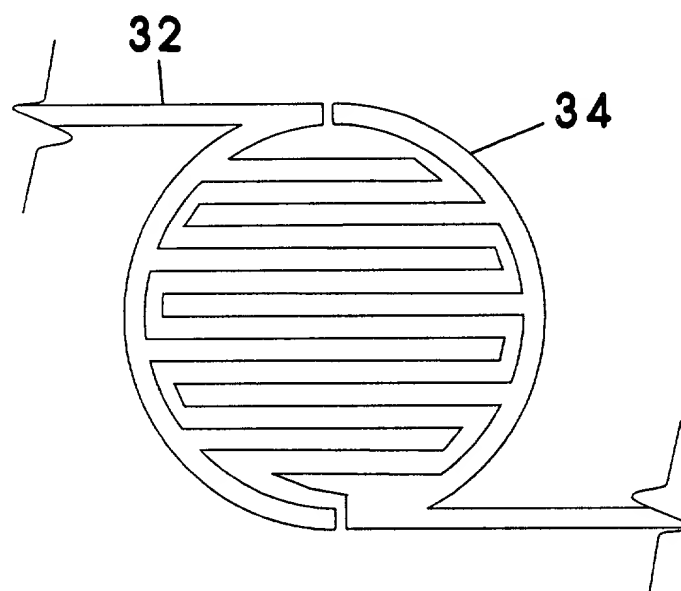

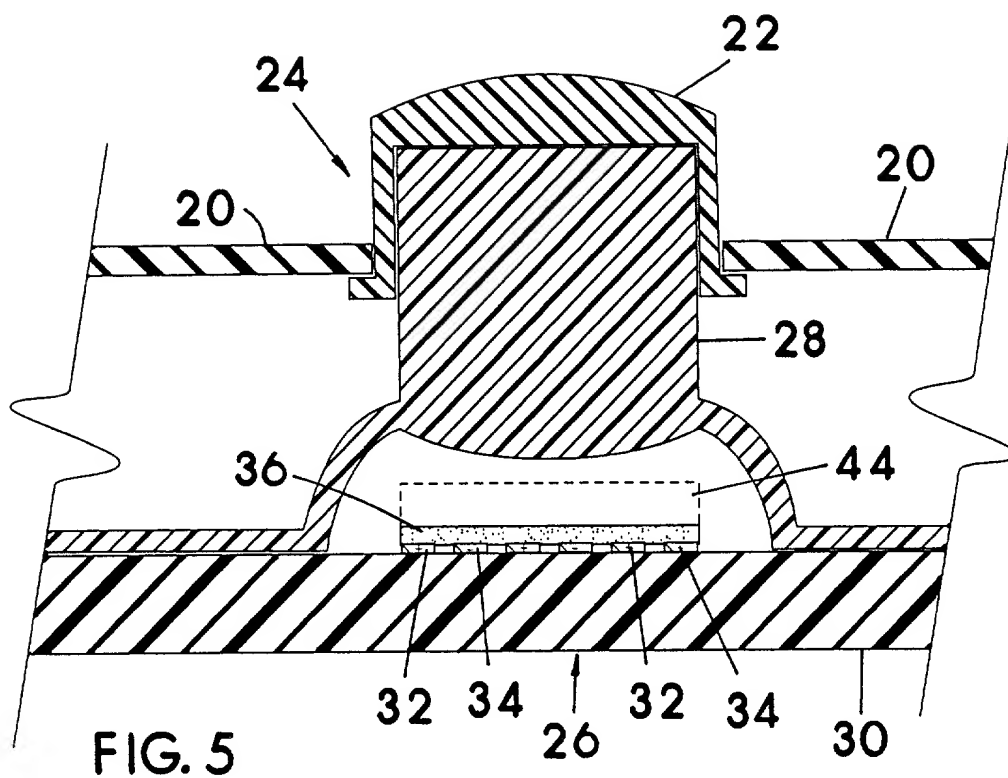

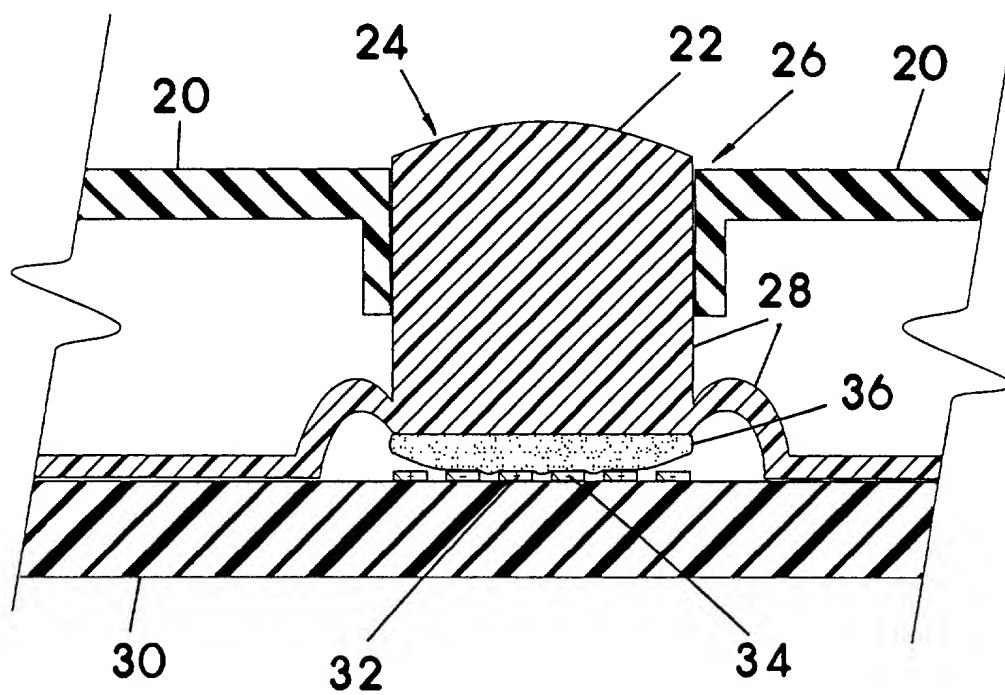

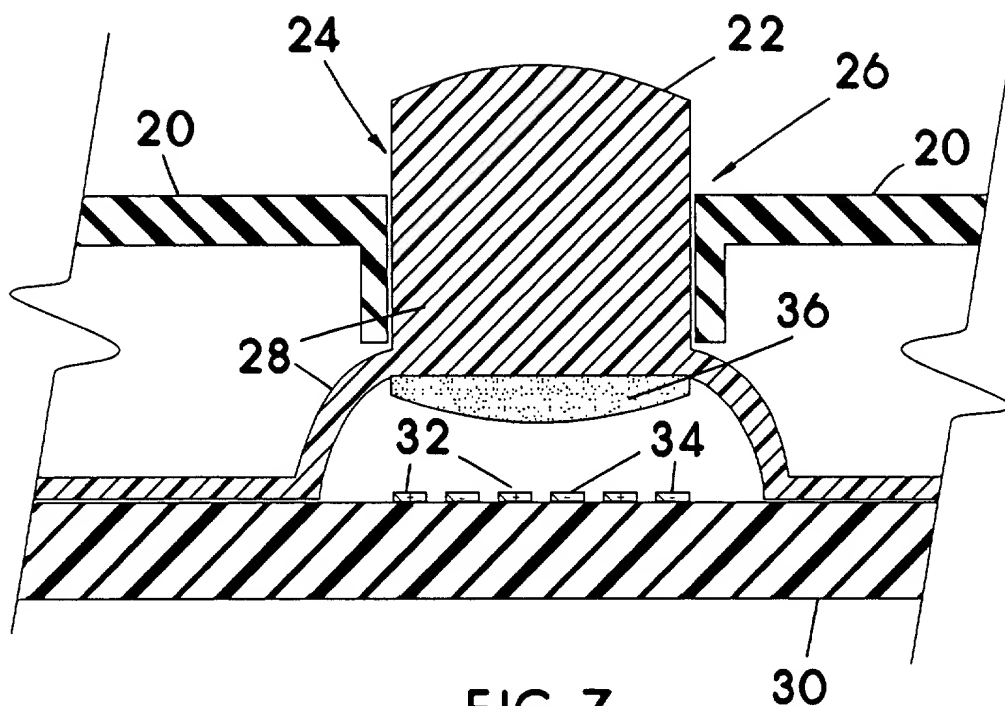

FIG. 4

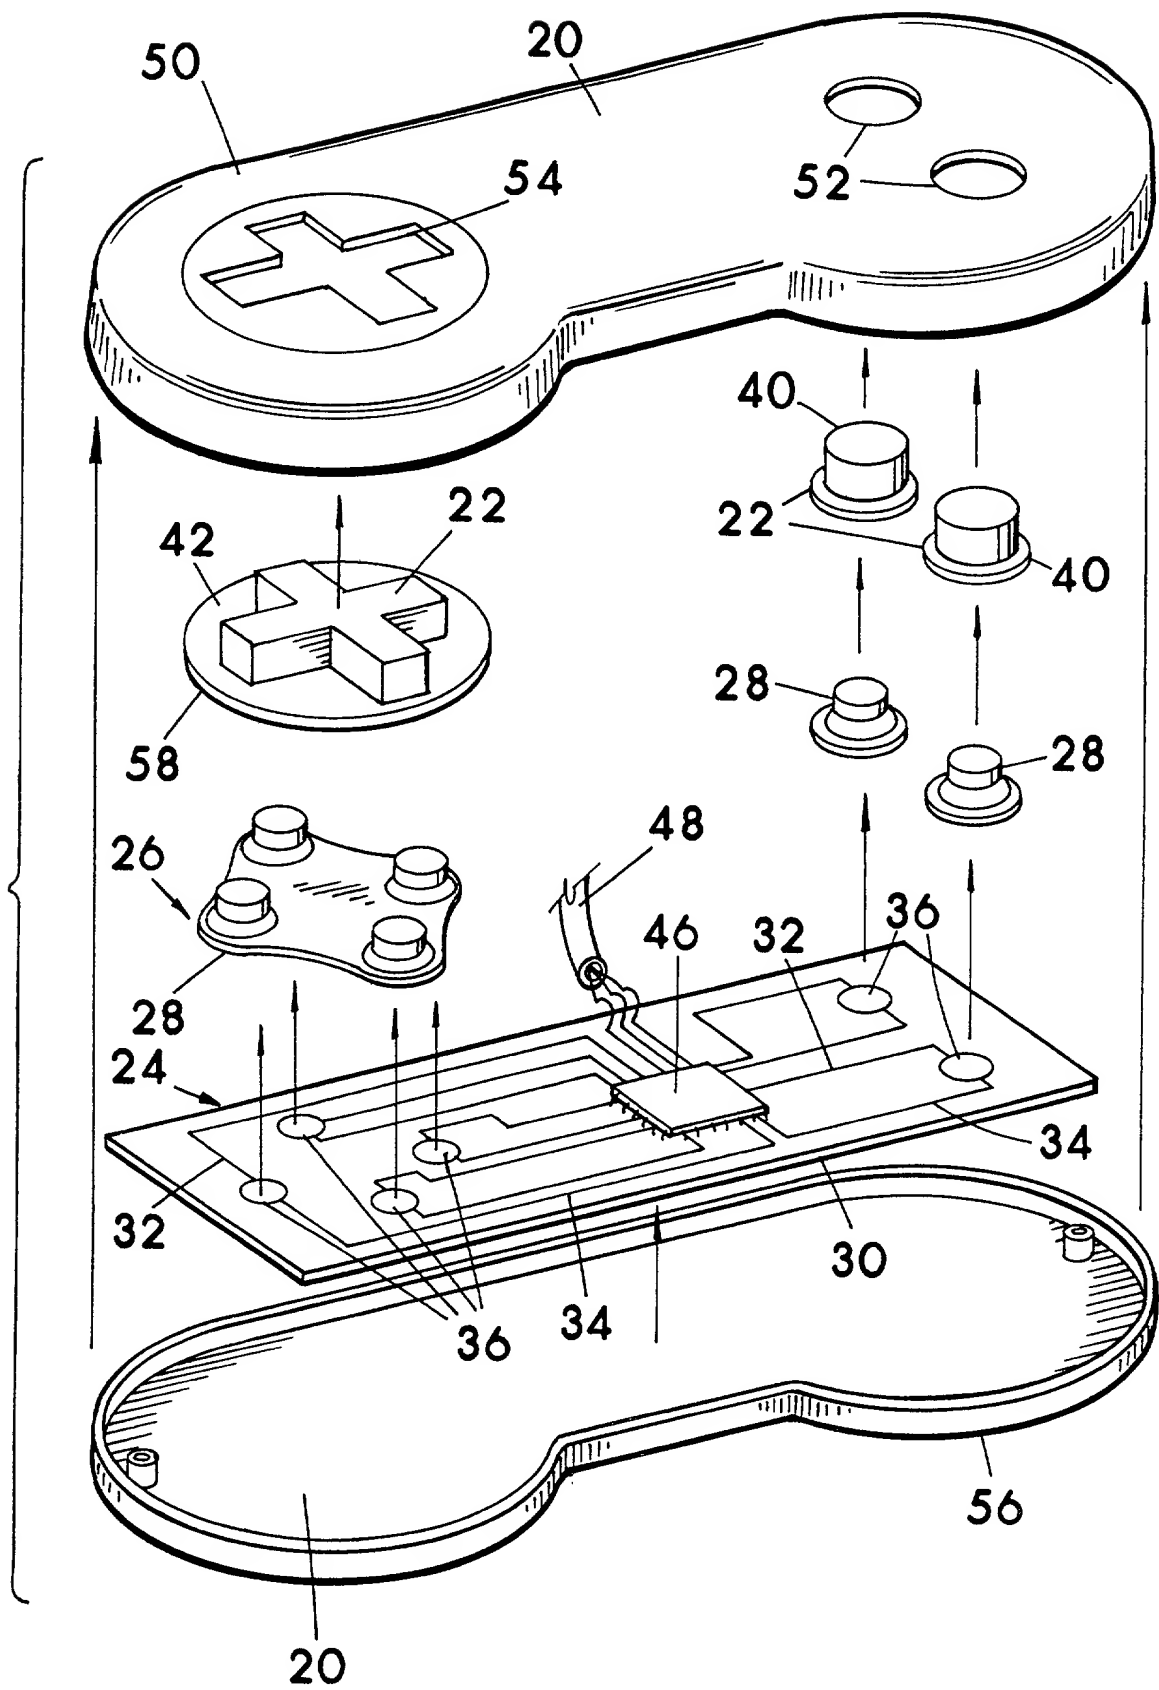

FIG. 9

The graph illustrates a positive linear relationship. The vertical axis is labeled 'Depressive Pressure' with 'High' at the top and 'Low' at the bottom, indicated by a downward-pointing arrow. The horizontal axis is labeled 'Conductivity of Sensor' and 'Action Intensity of Imagery' with 'Low' on the left and 'High' on the right, indicated by a double-headed arrow. A straight line starts at the origin (0,0) and extends diagonally upwards to the right, showing that as the horizontal variable increases, the vertical variable also increases.
